

Dear SIEF Member,

We have sent you a survey on Ytterbium (III) oxide (CAS 1314-37-0, EC 215-234-0). Thank you for taking the time to complete this survey. Below you can find an overview of the answers we received from the SIEF.

Treibacher Industrie AG is officially accepted as lead registrant for this substance and has informed ECHA of its nomination.

RESULTS (CAS 1314-37-0, EC 215-234-0)
SURVEY
Ytterbium (III)
oxide

# surveys sent	# answers	Reg Intention	Type of submission dossier			2018 deadline		LR choice		Interested to join RE Consortium	Data owners
			regular	On site isolated intermediate	Transported isolated intermediate	1-10 tpa	10-100 tpa	agree	disagree		
62	4	3	3	0	0	2	1	3	0	0(*)	1

* One SIEF member showed some interest in joining the RE Consortium but did not follow-up.

The registration intentions of the Rare Earth consortium members are included in the results.

In the attachment you will find the generic Substance Identification Profile (SIP) for Ytterbium (III) oxide (CAS 1314-37-0, EC 215-234-0), for which an **Annex VIII** REACH registration dossier will be developed by the Rare Earth Consortium in order to submit it for the 2018 registration deadline.

If you intend to become a co-registrant by buying a Letter of Access, you have now the opportunity to check that the substance you want to register falls within this SIP description.

If your substance does not meet the above specifications, then you will have to justify that the differences do not modify the conclusions of the hazard assessment and do not require a different Classification and Labelling. This information should be reported in the company specific (confidential) part of your co-registration dossier (IUCID sections 1-3).

The Rare Earth Consortium has developed a public website where all information related to the preparation of the registration dossiers under REACH will be made available. Please take a look at <http://www.rare-earth-consortium.eu/>.

If you would like to provide any feedback on the above communication please contact us at rare-earth-consortium@arcadis.com

If we don't receive a reaction before 06/05/2016 we will assume that you agree with the SIP.

Please keep us informed if your registration intentions would change.

Best regards,

Charlotte van de Water

ARCADIS on behalf of the Rare Earth Consortium
